Typ	Runabouts
Model	75
Baujahr	2011
Länge	7.6 m
Breite	2.3 m
Liegeplatz	IT
Preis	85.000 € versteuert

For sale is a Scandinavian Aluminium Speed Boat - Vector 75

VECTOR is a rare opportunity to acquire a highly capable Swedish built aluminium performance boat that combines genuine commercial grade toughness with the speed, handling and versatility expected from a modern yacht tender.

Her marine grade aluminium construction, deep V hull and 24 degree deadrise give her an exceptionally solid and confidence inspiring ride, particularly in the short and demanding sea conditions where lighter recreational boats can become uncomfortable. Powered by a Mercury Verado 400 hp outboard, VECTOR offers rapid acceleration and a maximum speed of approximately 48 knots, while remaining manageable and practical for day to day use.

The heavy duty foam filled polyurethane D fender is a particularly valuable feature, allowing safe and forgiving manoeuvring alongside a mothership, quay or tender dock. This makes VECTOR equally suitable as a serious yacht tender, island commuter, support boat or high performance day boat.

The centre console layout provides excellent visibility and protection, with shock mitigating helm seats and an aft sofa for three passengers. A compact forward cuddy cabin offers useful shelter, storage and occasional overnight accommodation. The fitted navigation package includes a Simrad multifunction display, radar and GPS compass, supported by Zipwake automatic trim control and hydraulic steering.

Since purchase, the boat has also been upgraded with a through hull depth transducer and a dedicated freshwater tank supplying the onboard shower. With UK Part I registration, low recorded engine hours at the time of purchase and robust Scandinavian construction, VECTOR represents a distinctive and practical alternative to more conventional production tenders.

Transport to Scandinavia is included in the purchase price!

HIGHLIGHTS:

- Rugged Swedish built aluminium performance boat
- Proven deep V hull with 24 degree deadrise for excellent seakeeping
- Powerful Mercury Racing 400 hp outboard engine
- Maximum speed of approx. 48 knots
- Heavy duty foam filled polyurethane D fender, ideal for use as a yacht tender
- CE certified in Design Category C for up to five persons
- Compact cuddy cabin with full length double V berth
- Shock mitigating jockey seats for driver and navigator
- Comfortable aft sofa with seating for three persons
- Simrad navigation package with 12 inch multifunction display, GPS compass and 4G radar
- Zipwake automatic trim system for improved handling and efficiency
- Hydraulic steering and adjustable engine jack plate
- Separate engine start and service battery systems with emergency start function
- Approximately 250 litre fuel capacity
- Robust aluminium construction using marine grade alloy 5083
- Compact dimensions and good trailerability
- Approximately 220 engine hours
- Four dedicated lifting slings included, suitable for tender handling and onboard stowage
- EU VAT paid
